PRESS RELEASE

Approval by CONSOB of the prospectus concerning the admission to trading of the ordinary shares of Technoprobe S.p.A. on Euronext Milan

Publication of the Prospectus related to the admission to listing of the ordinary shares of Technoprobe S.p.A. on Euronext Milan

Cernusco Lombardone (LC), April 26, 2023 – Technoprobe S.p.A., a company listed on Euronext Growth Milan and leader in the design and production of Probe Cards (“**Company**” or “**Technoprobe**”), hereby announces that, today, the Commissione Nazionale per le Società e la Borsa (“**Consob**”), has authorized, with provision on April 26, 2023, no. 0039375/23 of protocol, the publication of the registration document and, with provision on April 26, 2023, no. 0039374/23 of protocol, the publication of the securities note and of the summary note.

The registration document, the securities note and the summary note jointly constitutes the Prospectus (the “**Prospectus**”) related to the admission to trading of the ordinary share of the Company on the regulated market Euronext Milan, organized and managed by Borsa Italiana (“**Euronext Milan**” and “**Borsa Italiana**”).

The approval of the Prospectus by Consob follows the provision no. 8940 by which Borsa Italiana, on April 24, 2023, has ordered the admission to trading of the ordinary shares of the Company (ISIN IT0005482333) on Euronext Milan.

The Company announces that the Prospectus was filed today with Consob and published in the forms and within the terms of the law on the Company's website:

<https://www.technoprobe.com/investors/investor-relations/ipo> and it is available to the public at the registered office of the Company in Cernusco Lombardone (LC), Via Cavalieri di Vittorio Veneto no. 2.

It is to remind that, on April 24, 2023, the Company presented to Borsa Italiana the application for admission to trading of ordinary shares on Euronext Milan.

The start of trading on Euronext Milan of the ordinary shares of Technoprobe and the simultaneous delisting from trading on Euronext Growth Milan of the same shares will be established by Borsa Italiana with subsequent notice, subject to the verification of the sufficient diffusion of the financial instruments within the indicated limit of 20,80% as minimum free float.

This press release will be available on Technoprobe's website www.technoprobe.com, in the Investor Relations section.

Technoprobe Group

Technoprobe is a leading company in the field of semiconductors and microelectronics. Established in 1996 by the entrepreneurial spirit of its founder Giuseppe Crippa, Technoprobe specialises in the design and manufacture of Probe Cards, i.e. electro-mechanical interfaces used for the functional testing of chips. Its market segment is the testing of non-memory or SOC (system on chip) semiconductors. The Group is the only Probe Card manufacturer in Italy and a world leader in terms of volume and turnover. It has partnerships and collaborations with some of the world's largest microelectronics, IT and digital companies. Probe cards are hi-tech devices that are custom-made for each chip and allow the function of chips to be tested during the manufacturing process. These technologically-advanced designs and solutions are essential for ensuring the proper functioning and reliability of devices that play a crucial role in industries such as Information Technology, 5G, Internet of Things, home automation, automotive, aerospace, etc. As a result, Technoprobe is a critical link in the supply chain for the manufacture of chips, which are at the heart of today's technological world. Technoprobe is a rapidly expanding hub of technological research and innovation with approximately 2700 employees (1700 of them located in Italy), three research centres and more than 600 certified patents. Technoprobe has 14 locations worldwide. The Group's Italian headquarters are in Cernusco Lombardone (LC), a municipality on the outskirts of Milan where there is also a production plant that covers an area of about 18,000 sqm. The Group has two additional production plants in Italy: one in Agrate (MB) covering about 3,000 sqm, and one in Osnago (LC) covering about 5,000 sqm. Also in Italy a Design Center was opened in Sicily, in Catania, in 2022. The Group also has 10 other locations spread across Europe (France and Germany), Asia (Taiwan, South Korea, China, Japan, Philippines and Singapore) and the United States (two locations in California).
