## Company profile

Technoprobe is a leading company in the field of semiconductors and microelectronics.

Established in 1996 by the entrepreneurial spirit of its founder Giuseppe Crippa, Technoprobe specialises in the design and manufacture of Probe Cards, i.e. electro-mechanical interfaces used for the functional testing of chips. Its market segment is the testing of non-memory or SOC (system on chip) semiconductors.

The Group is the only Probe Card manufacturer in Italy and a world leader in terms of volume and turnover. It has partnerships and collaborations with some of the world's largest microelectronics, IT and digital companies.

Probe cards are hi-tech devices that are custom-made for each chip and allow the function of chips to be tested during the manufacturing process. These technologically-advanced designs and solutions are essential for ensuring the proper functioning and reliability of devices that play a crucial role in industries such as Information Technology, 5G, Internet of Things, home automation, automotive, aerospace, etc.

As a result, Technoprobe is a critical link in the supply chain for the manufacture of chips, which are at the heart of today's technological world.

Technoprobe is a rapidly expanding hub of technological research and innovation with approximately 2800 employees (1700 of them located in Italy), 4 research centres and more than 600 certified patents.

Technoprobe has 16 locations worldwide.

The Group's Italian headquarters are in Cernusco Lombardone (LC), a municipality on the outskirts of Milan where there is also a production plant that covers an area of about 18,000 sqm. The Group has two additional production plants in Italy: one in Agrate (MB) covering about 3,000 sqm, and one in Osnago (LC) covering about 5,000 sqm. Also in Italy a Design Center was opened in Sicily, in Catania, and new offices were established in Vimercate (MB) within the premises of IBM's historic headquarters. The Group also has 11 other locations spread across Europe (France and Germany), Asia (Taiwan, South Korea, China, Japan, Philippines and Singapore) and the United States (two locations in California).

On February 15, 2022 Technoprobe was listed on the Euronext Growth Milano market and since May 2nd 2023 shares have been transferred to Euronext Milano segment.
